GUIDELINES

betteryearbook

- Use 8.5” x 11” sheet of paper.
- Use the paper vertically.
- Design must include the school name and school year
- Any art medium may be used - crayons, paint, pastels, markers, color pencils, etc. Using materials that create texture give added dimensions to the design.
- Design a cover that shows what you think you will be doing our exciting new STEAM Building. What sorts of engineering projects do you think you will make in there? Structures? Robots? What tools will you be using? Close your eyes and imagine.
- Your design must be in color. Avoid leaving the background blank or white. Keep what's important in the design (eg. school name) away from the paper edges.
- Write your first and last name, grade, room number, and teacher name on the back with light pencil.

There is still time to order your yearbook for \$30.
